e-mail: tripathikd02@yahoo.com

Dear Colleagues,

Welcome to Sangam City Allahabad, the present venue of International Conference on Sports Injury & Arthroscopy of the Shoulder. We are bringing up an exciting meeting to highlight the latest and best in Shoulder Arthroscopy.

Allahabad, the Kumbh Nagri, is situated at the confluence of river Ganges, Yamuna and Saraswati, one of the most revered and sacred places of India also known as “Tirthraja Prayag”, is the holiest place the existing world. This place is also the Sangam of old 'n' new, ethnicity 'n' academics and traditions 'n' technology.

This time we are going to discuss the most mobile, and accessible joint of the human body – 'The Shoulder'. Shoulder is foundation of upper limb activities and because of versatile mobility it is very prone to injury in sports and day to day activities affecting patients of all age groups.

We are working hard to ensure that the Orthopaedic Surgeons around the country and abroad will be able to share the state-of-the-art presentations, debates and symposia on current problems and practices in shoulder arthroscopy. We wish to organize a live demonstration on basic and advanced shoulder arthroscopy too.

On behalf of Indian Arthroscopy Society, U.P. Orthopaedic Association and Allahabad Orthopaedic Society, I look forward to welcome you on this great occasion and we hope the expectations of the participants will be met to enrich their knowledge and skills. Along with hectic academic activities, we ensure social and vibrant cultural evening too.

With regards

A handwritten signature in blue ink, appearing to read 'K. D. Tripathi', with a horizontal line underneath it.

Yours Sincerely
Dr. K. D. Tripathi
Convener

Overseas Faculty
